

MCED Material Container Emptying Device

To make the emptying of the material containers more easy, we have developed an adaptable Material Container Emptying Device. We have several standard mounting options available, for example one you simply mount on a wall or one that can be mounted on the building ribs.

Advantages:

- Simple unloading system for the material container of the FBM, FBOA, FBCRA
- Several standard mounting options available
- Adapters for your seed bins available
- Electrical lifting device

Specification	MCED
Dimensions	Depending on mounting frame
Power supply	230 Vac 50Hz 0.37 kW
Weight	Approx. 25kg
