

# Drumpriming 6x6

**“Simple and straight forward design for drumpriming”**

The Drumpriming Quattro System is a simple and straight forward designed drumpriming system for up to 6 drums (3x 6L and 3x 10L). The top doors can be easily opened so that the drums can be put on to the rotating system. After closing the doors, the rotation can be started.

**Safety switch** in the door system. As soon as the doors are opened, the rotation will stop automatically to protect the operator for rotating parts.

## Specifications:
